This report provides a high quality, well detailed Gemmologists verification for an item offered for sale. After a thorough examination the Gemmologists report describes and documents the quality of the jewellery or watches listed and provides an opinion of its current value.

For a seller it assists them to represent the item for sale with a correct description. For prospective buyers the descriptive detail informs them of the quality of the item.

If the item is sold by the current owner we recommend the report is updated to be an Insurance Valuation and to show the purchasers name. However the retail comparison cost shown on this report should provide adequate Insurance replacement cover for a period of one year from the report date.
